#### Third-Quarter 2023 Highlights vs. Third-Quarter 2022 Highlights

- Average private education loans outstanding, net, of \$20.6 billion, up 3%.

  of \$208 million in the year-ago period.
- Private education loans held-for-investment in forbearance were 1.36% of private education loans held-for-investment in repayment and forbearance, unchanged from the year-ago period.

Investor Contact: Melissa Bronaugh, 571-526-2455 melissa.bronaugh@salliemae.com Media Contact: Rick Castellano, 302-451-2541 rick.castellano@salliemae.com The following are significant items or events that occurred in the third quarter of 2023 or early in the fourth quarter of 2023.

#### Provisions for Credit Losses

Provision for credit losses in the third quarter of 2023 was \$198 million, compared with \$208 million in the year-ago quarter. During the third quarter of 2023, the provision for credit losses was primarily affected by new loan commitments, net of expired commitments, slower prepayment rates, management overlays, and changes in economic outlook. In the year-ago quarter, the provision for credit losses was primarily affected by new loan commitments and slower prepayment rates, which were offset by a negative \$50 million provision associated with the private education loan sale completed in the third quarter of 2022.

#### Credit Performance

Private education loans held-for-investment net charge-offs as a percentage of average private education loans held-for-investment in repayment (annualized) were 2.44% for the nine months ended September 30, 2023, compared to 2.37% for the year-ago period.

#### Progress on Balance Sheet and Capital Allocation

#### Loan Sales

On October 13, 2023, the company sold approximately \$1 billion of its private education loans, including approximately \$921 million in principal and approximately \$78 million in capitalized interest, to an unaffiliated third party. The gain on sale of loans will be recognized in the fourth-quarter 2023 consolidated statements of income. The transaction qualified for sale treatment and removed the balance of the loans from the company's balance sheet on the settlement date. The company will continue to service these loans pursuant to the terms of the applicable transaction documents.

#### The following provides guidance on the company's performance in 2023.

#### Guidance\*

- For 2023, the company expects the following:
  - Full-year diluted non-GAAP "Core Earnings" per common share of \$2.55 \$2.65.\*\*
  - Full-year Private Education Loan originations year-over-year growth of 6% 7%.
  - Full-year total loan portfolio net charge-offs of \$375 million \$385 million.
  - Full-year non-interest expenses of \$625 million \$630 million.

The company expects gross charge-offs for full year 2023 to be equal to, or slightly better than, its original 2023 outlook. Net charge-offs are expected to end the year towards the higher end of our guidance range due to the change in our recovery strategy that shifted more of our efforts in house. While this shift improved our expected long-term recovery rates, it will likely impact the timing of recoveries this year. Non-interest expense guidance was updated for higher-than-expected portfolio growth, the impact of investments made during the year, as well as other inflationary pressures.

\* See page 6 for a cautionary note regarding forward-looking statements.

\*\* See Non-GAAP "Core Earnings" to GAAP Reconciliation on page 9 for a description of non-GAAP "Core Earnings". GAAP net income attributable to SLM Corporation common stock is the most directly comparable GAAP measure. However, this GAAP measure is not accessible on a forward-looking basis because the company is unable to estimate the net impact of derivative accounting and the associated net tax expense (benefit) for future periods.

### **Footnotes:**

(1) Sallie Mae provides non-GAAP "Core Earnings" because it is one of several measures management uses to evaluate management performance and allocate corporate resources. The difference between non-GAAP "Core Earnings" and GAAP net income is driven by mark-to-fair value unrealized gains and losses on derivative contracts recognized in GAAP, but not in non-GAAP "Core Earnings" results. See the Non-GAAP "Core Earnings" to GAAP Reconciliation in this press release for a full reconciliation of GAAP and non-GAAP "Core Earnings." Non-GAAP "Core Earnings" exclude periodic unrealized gains and losses caused by the mark-to-fair value valuations on derivatives that do not qualify for hedge accounting treatment under GAAP, but include current period accruals on the derivative instruments. Under GAAP, for our derivatives held to maturity, the cumulative net unrealized gain or loss over the life of the contract will be equal to \$0. Management believes the company's derivatives are effective economic hedges, and, as such, they are a critical element of the company's interest rate risk management strategy. Our non-GAAP "Core Earnings" are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies.

(2) We calculate and report our Return on Assets ("ROA") as the ratio of (a) GAAP net income numerator (annualized) to (b) the GAAP total average assets denominator.

(3) We calculate and report our non-GAAP "Core Earnings" Return on Assets ("Non-GAAP Core Earnings ROA") as the ratio of (a) non-GAAP "Core Earnings" net income numerator (annualized) to (b) the GAAP total average assets denominator.

(4) We calculate and report our Return on Common Equity ("ROCE") as the ratio of (a) GAAP net income attributable to common stock numerator (annualized) to (b) the net denominator, which consists of GAAP total average equity less total average preferred stock.

(5) We calculate and report our non-GAAP "Core Earnings" Return on Common Equity ("Non-GAAP Core Earnings ROCE") as the ratio of (a) non-GAAP "Core Earnings" net income attributable to common stock numerator (annualized) to (b) the net denominator, which consists of GAAP total average equity less total average preferred stock.
