This Presentation contains "forward-looking" statements and information based on management's current expectations as of the date of this Presentation. Statements that are not historical facts, including statements about the Company's beliefs, opinions, or expectations and statements that assume or are dependent upon future events, are forward-looking statements. This includes, but is not limited to: statements regarding future developments surrounding COVID-19 or any other pandemic including, without limitation, statements regarding the potential transport of COVID-19 or any other pandemic on the Company's business, results of operations, financial condition, and/or cash flows; the Company's sexpectation and ability to pay a quarterly cash divided on its common stock in the future, subject to the determination by the Company's barded Directors, and based on an evaluation of the Company's supresention and ability to execute loan sales and share repurchases; the Company's projections regarding originations, net charge-offs, non-interest expresse, earnings, balance sheet position, and other metrics; any estimates related to a toxicon regarding originations, per tracks and other factors include, among others, the isks and uncertainties assumptions, and other factors that may cause actual results to be materially different from those reflected in such forward-looking statements. These factors include, among others, and subsequent flings with the SEC: the societal, business, and legislative/regulatory impact of pandemics and other public heath relaxe proses in financing costs; limits on liquidity: increases in ords associated with company's for any subsidiary's derivative transactions; and changes in the terms of education loans and the educational credit marketplace (including any regarding the measurement of the Company's for any subsidiary's derivative transactions; and changes in the deman

The Company reports financial results on a GAAP basis and also provides certain non-GAAP "Core Earnings" performance measures. The difference between the Company's non-GAAP "Core Earnings" and GAAP results for the periods presented were the unrealized, mark-to-fair value gains/losses on derivative contracts (excluding current period accruals on the derivative instruments), net of tax. These are recognized in GAAP, but not in non-GAAP "Core Earnings" results. The Company provides non-GAAP "Core Earnings" because it is one of several measures management uses when making management decisions regarding the Company's performance and the allocation of corporate resources. The Company's non-GAAP "Core Earnings" is not a defined term within GAAP and may not be comparable to similarly titled measures reported by other companies.

For additional information, see "Management's Discussion and Analysis of Financial Condition and Results of Operations-Non-GAAP 'Core Earnings'' in the company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2022 for a further discussion and the "Non-GAAP 'Core Earnings' to GAAP Reconciliation" table in this Presentation for a complete reconciliation between GAAP net income and non-GAAP 'Core Earnings'.

Strengthening Economy

- Average unemployment rate for the over 25-year-old college graduate population improved to 2.2% in Q1 2022 from 3.8% in Q1 2021.²⁵
- In an internal survey of our top 100 school relationships on early enrollment trends for AY 2022-2023, 83% expect their enrollment targets will be met or surpassed. 63% of these same schools are seeing increased admission applications compared to AY 2021-2022.³

Strong Strategic Execution

- Our resilient business model and strategy allowed us to continue to perform well in the first quarter despite current macroeconomic pressures.
- Loan Sale/Share Repurchase strategy has led to a 3% reduction in share count since Jan. 1, 2022 and a 37% reduction since the initiative began in January of 2020.

Continuation of our Loan Sale Strategy

On Apr. 27, 2022, the company sold approximately \$2.0 billion of its private education loans, including approximately \$1.9 billion of principal and approximately \$130 million in capitalized interest, to an unaffiliated third party. The gain on sale will be recognized in the second-quarter 2022 consolidated statements of income.

1. nn\$ Maximize the profitability and growth of our core business

Revenue

GAAP Net Income of \$129 million in Q1 2022, compared to \$641 million in Q1 2021.
Originated \$2.2 billion in Private Education Loans in Q1 2022 (6% increase vs. Q1 2021).

Total Operating Expenses

• Total operating expenses of \$132 million in Q1 2022, which is 6% higher than the \$125 million in Q1 2021.

Earnings/Capital

- Q1 2022 GAAP diluted earnings per common share of \$0.45.
- Paid common stock dividend of \$0.11 per share in Q1 2022.
- Repurchased 10 million shares of common stock in Q1 2022. This is a 3% decrease in shares outstanding since the beginning of 2022. From Jan. 1, 2020 through Mar. 31, 2022, the company has repurchased 156 million shares of common stock under its repurchase programs, which represents a 37% reduction in the total number of shares outstanding on Jan. 1, 2020.
- There was \$1.1 billion of capacity remaining under the 2022 Share Repurchase Program at Mar. 31, 2022.

Private Education Loan Originations²³

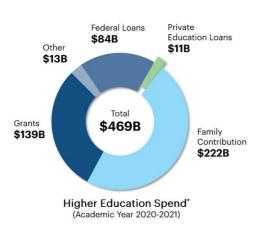

Sallie Mae Annual Originations (\$ millions)

Higher Education Value Proposition Remains Attractive⁵

Expanding Addressable Market

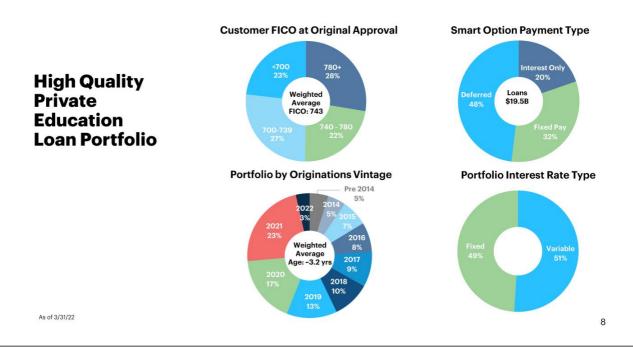

- Private Education Loans represent 2-3% of the overall spend in higher education annually.
- Total spend on higher education grows ~2% annually, while Private Education Loans grew 5-7% annually (pre-pandemic), primarily due to increases in cost of attendance.

Strong Strategic Execution

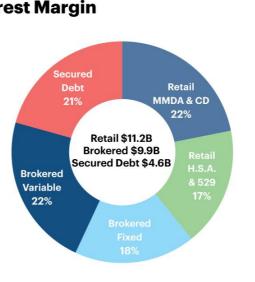

- Over the past 8 years, the 25-29 year old population with a Bachelors Degree or higher has increased 0.8% per year.²⁶
- 55% of students graduated with student loans in AY 2019-2020²⁴
- Of the 55% of bachelor's degree recipients that graduated with student loans, the average debt amount was \$28,400. $^{\rm 24}$

Higher Education is Valuable

 The median income of recent college graduates was \$52,000 in 2021, 73% higher than the median income of people with high school diploma only.²⁷

We know our customers' finances, payment patterns and indebtedness

We have the relationships and knowledge to assist our customers with their next step: post-graduation plans, jobs, future financial needs

We are there for our customers during and after their important transition to adulthood

Changing the Narrative

In the current environment, there have been three main areas of focus from third parties that include free college, debt forgiveness and bankruptcy reform. We expect our business to perform well even under leading reform proposals.⁴

Free College

- Benefits of subsidizing college tuition for those who would otherwise not be able to attend
- Promotes social equity, equality of opportunity and economic mobility
- 23 States offer varying levels of free tuition programs; 18 States have school-specific free tuition programs
- In the first year of the New York program, our originations in the SUNY system declined 3% and have grown every year since then

Debt Forgiveness

Forgiving all federal student loans will cost \$1.5 trillion, likely too high a cost for the policy to succeed. A need-based approach may be more responsible and achievable.

Bankruptcy Reform

Sallie Mae has long been supportive of prospectively allowing the discharge of student loan debt in bankruptcy, provided there is a period of post-graduation payments to prevent incentivizing bankruptcy simply to avoid student loan repayments after graduation.

Maintain Rigorous Capital Allocation and Return Program

Invest in High ROE Growth

- Continue to focus on high-quality Private Education Loan originations, including deeper penetration of graduate school market
- Build other sources of revenue and capital in expense-efficient ways

Embracing a Hybrid Hold / Sell Loan Model

- Expect to sell assets to optimize growth in required capital
- The expected result is a balance sheet that will remain relatively flat despite loan sales
- \$2B in Private Education Loan sales completed in 2Q 2022, which will enable additional return of excess capital to shareholders

Share Repurchase

- In the first quarter of 2022, the company repurchased 10 million shares of its common stock at a total cost of \$176 million, or an average purchase price of \$18.46 per share, under a Rule 10b5-1 trading plan authorized under its share repurchase programs.
- From Jan. 1, 2020 through Mar. 31, 2022, the company has repurchased 156 million shares of common stock under its repurchase programs, which represents a 37% reduction in the total number of shares outstanding on Jan. 1, 2020. At Mar. 31, 2022, there was \$1.1 billion of capacity remaining under the 2022 Share Repurchase Program, which was announced on Jan. 26, 2022 and expires on Jan. 25, 2024.

Quarterly Common Stock Dividend

- Paid \$0.11 quarterly common stock dividend on Mar. 15, 2021
- Expect to continue to pay dividend, subject to Board approval⁸

CECL Update¹³

Adopted on January 1, 2020.

- The company's 2020 financial results reflect a transition adjustment that increased the allowance for loan losses by \$1.1 billion, increased the liability representing its off-balance sheet exposure for unfunded commitments by \$116 million and increased the deferred tax asset by \$306 million, resulting in a cumulative effect adjustment that reduced retained earnings by \$953 million.
- The Private Education Loan allowance for losses as a percentage of ending total Private Education Loan balance immediately after the adoption of CECL was 7.0 percent.

The regulatory capital impact of our transition adjustments recorded on January 1, 2020 from the adoption of CECL will be deferred for two years.

- The company elected the option to delay for two years, and then phase in over the following three years, the effects on our regulatory capital of CECL relative to the incurred loss methodology.
- The regulatory capital impact of the Bank's transition adjustments recorded on January 1, 2020 from the adoption of CECL, and 25 percent of the ongoing impact of CECL on the Bank's allowance for credit losses, retained earnings, and average total consolidated assets, each as reported for regulatory capital purposes (collectively, the "adjusted transition amounts"), were deferred for the two-year period ending January 1, 2022.

From January 1, 2022 to January 1, 2025, the adjusted transition amounts will be phased in for regulatory capital purposes at a rate of 25 percent per year, with the phased-in amounts included in regulatory capital at the beginning of each year.
