The following are significant items or events that will affect the company's performance in 2020.

2020 Share Repurchase Program*

The company has been authorized to repurchase up to \$600 million in common stock in 2020, under a new share repurchase program, which is effective immediately and expires on Jan. 21, 2022. Repurchases may occur from time to time and through a variety of methods, including open market repurchases, repurchases effected through Rule 10b5-1 trading plans, negotiated block purchases, accelerated share repurchase programs, tender offers or other similar transactions.

Loan Sales*

The company expects to sell approximately \$3 billion in loans in 2020, dependent upon market conditions. The company expects to remain well capitalized during the phase-in of regulatory capital following the implementation of CECL (as defined below). Loan sales will allow the company to return excess capital to shareholders through share repurchases.

Adoption of CECL*

On Jan. 1, 2020, the company adopted the Financial Accounting Standards Board's Accounting Standards Update No. 2016-13, "Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments" ("CECL"). CECL requires the company to measure its allowance for losses based upon the estimate of current expected credit losses, and will have a significant impact on diluted GAAP earnings per share and diluted "Core Earnings" per share as adjustments are made to the allowance for loan losses in future periods to reflect life-of-loan expected losses.

CECL will have a material impact on how the company records and reports its financial condition and results of operations and on regulatory capital. The company's first-quarter 2020 financial results will reflect a transition adjustment that is currently estimated to increase the allowance for loan losses by approximately \$1.1 billion, increase the liability representing its off-balance sheet exposure for unfunded commitments by approximately \$115 million, and increase the deferred tax asset by approximately \$300 million, resulting in a cumulative effect adjustment currently estimated to reduce retained earnings by approximately \$950 million. The Private Education Loan allowance for losses as a percentage of ending total Private Education Loan balance after the adoption of CECL is estimated to initially be approximately 6.7 percent. These adjustments will be refined and reflected in the company's first-quarter 2020 financial results. The company has elected the three-year phase in for the initial impact of adopting CECL for regulatory capital adequacy purposes.

Discontinuation of Personal Loan Originations*

The company discontinued new Personal Loan originations in the fourth quarter of 2019 to focus resources on core business strategic priorities and drive shareholder value and does not expect to originate or purchase Personal Loans in 2020. The company processed completed Personal Loan applications received by Dec. 15, 2019 and continues to provide Personal Loan customers with the high-quality service they have come to expect. At Dec. 31, 2019, the company held \$1.0 billion in total originated and purchased Personal Loans.

Guidance*

For 2020, the company expects the following, which includes the expected CECL impact on the provisions for credit losses:

- Full-year diluted "Core Earnings" per share of \$1.85 \$1.91.**
- Full-year provisions for credit losses of \$285 million \$305 million.
- Full-year total portfolio net charge-offs of \$275 million \$285 million.
- Full-year Private Education Loan originations year-over-year growth of 6%.
- Full-year non-interest expenses of \$570 million \$580 million.
- Full-year loan sales of approximately \$3 billion to fund up to \$600 million of share repurchases.

Beginning in 2020, the company plans to evaluate management's performance internally using a measure that starts with "Core Earnings" attributable to SLM Corporation common stock for a period, and further adjusting it by increasing it by the impact of the GAAP provisions for credit losses and decreasing it by the total portfolio net charge-offs recorded in that period, net of the tax impact of these adjustments.

* See page 5 for a cautionary note regarding forward-looking statements.

** See "Core Earnings" to GAAP Reconciliation on page 9 for a description of non-GAAP "Core Earnings". GAAP net income attributable to SLM Corporation common stock is the most directly comparable GAAP measure. However, this GAAP measure is not accessible on a forward-looking basis because the company is unable to estimate the net impact of derivative accounting and the associated net tax expense (benefit) for future periods.

Footnotes:

(1) Sallie Mae provides "Core Earnings" because it is one of several measures management uses to evaluate management performance and allocate corporate resources. The difference between "Core Earnings" and GAAP net income is driven by mark-to-fair value unrealized gains and losses on derivative contracts recognized in GAAP, but not in "Core Earnings" results. See the "Core Earnings" to GAAP Reconciliation in this press release for a full reconciliation of GAAP and "Core Earnings." "Core Earnings" exclude periodic unrealized gains and losses caused by the mark-to-fair value valuations on derivatives that do not qualify for hedge accounting treatment under GAAP, but include current period accruals on the derivative instruments. For periods prior to July 1, 2018, "Core Earnings" also exclude the periodic unrealized gains and losses that are a result of ineffectiveness recognized related to effective hedges under GAAP, net of tax. Under GAAP, for our derivatives sheld to maturity, the cumulative net unrealized gain or loss over the life of the contract will equal \$0. Management believes the company's derivatives are effective economic hedges, and, as such, they are a critical element of the company's interest rate risk management strategy. Our "Core Earnings" are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies.

(2) We calculate and report our non-GAAP operating efficiency ratio as the ratio of (a) the total non-interest expense numerator to (b) the net revenue denominator (which consists of the sum of net interest income, before provision for credit losses, and non-interest income, excluding any gains and losses on sales of loans and securities, net and the net impact of derivative accounting as defined in the "Core Earnings' to GAAP Reconciliation" table in this press release). This ratio provides useful information to investors because it is a measure used by our management team to monitor our effectiveness in managing operating expenses. Other companies may use similarly titled non-GAAP financial measures that are calculated differently from our ratio. Accordingly, our non-GAAP operating efficiency ratio may not be comparable to similar measures used by other companies.

(3) We calculate and report our Return on Assets ("ROA") as the ratio of (a) GAAP net income numerator (annualized) to (b) the GAAP total average assets denominator.

(4) We calculate and report our non-GAAP "Core Earnings" Return on Assets ("Core Earnings ROA") as the ratio of (a) "Core Earnings" net income numerator (annualized) to (b) the GAAP total average assets denominator.

(5) We calculate and report our Return on Common Equity ("ROCE") as the ratio of (a) GAAP net income attributable to common stock numerator (annualized) to (b) the net denominator, which consists of GAAP total average equity less total average preferred stock.

4

(6) We calculate and report our non-GAAP "Core Earnings" Return on Common Equity ("Core Earnings ROCE") as the ratio of (a) "Core Earnings" net income attributable to common stock numerator (annualized) to (b) the net denominator, which consists of GAAP total average equity less total average preferred stock.

This press release contains "forward-looking statements" and information based on management's current expectations as of the date of this release. Statements that are not historical facts, including statements about our beliefs, opinions or expectations and statements that assume or are dependent upon future events, are forward-looking statements. This includes, but is not limited to: the company's expectation and ability to pay a quarterly cash dividend on its common stock in the future, subject to the determination by the company's Board of Directors, and based on an evaluation of the company's earnings, financial condition and requirements, business conditions, capital allocation determinations, and other factors, risks and uncertainties; the company's 2020 guidance; the company's three-year horizon outlook; the company's expectation and ability to execute loan sales and share repurchases; the company's projections for originations and earnings growth and balance sheet position; and any estimates related to accounting standard changes. Forward-looking statements are subject to risks, uncertainties, assumptions and other factors that may cause actual results to be materially different from those reflected in such forward-looking statements. These factors include, among others, the risks and uncertainties set forth in Item 1A. "Risk Factors" and elsewhere in the company's Annual Report on Form 10-K for the year ended Dec. 31, 2018 (filed with the Securities and Exchange Commission ("SEC") on Feb. 28, 2019) and subsequent filings with the SEC; increases in financing costs; limits on liquidity; increases in costs associated with compliance with laws and regulations; failure to comply with consumer protection, banking and other laws; changes in accounting standards and the impact of related changes in significant accounting estimates, including any regarding the measurement of our allowance for loan losses and the related provision expense; any adverse outcomes in any significant litigation to which the company is a party; credit risk associated with the company's exposure to third parties, including counterparties to the company's derivative transactions; and changes in the terms of education loans and the educational credit marketplace (including changes resulting from new laws and the implementation of existing laws). We could also be affected by, among other things: changes in our funding costs and availability; reductions to our credit ratings; cybersecurity incidents, cyberattacks and other failures or breaches of our operating systems or infrastructure, including those of thirdparty vendors; damage to our reputation; risks associated with restructuring initiatives, including failures to successfully implement cost-cutting programs and the adverse effects of such initiatives on our business; changes in the demand for educational financing or in financing preferences of lenders, educational institutions, students and their families; changes in law and regulations with respect to the student lending business and financial institutions generally; changes in banking rules and regulations, including increased capital requirements; increased competition from banks and other consumer lenders; the creditworthiness of our customers; changes in the general interest rate environment, including the rate relationships among relevant money-market instruments and those of our earning assets versus our funding arrangements; rates of prepayments on the loans that we own; changes in general economic conditions and our ability to successfully effectuate any acquisitions; and other strategic initiatives. The preparation of our consolidated financial statements also requires us to make certain estimates and assumptions, including estimates and assumptions about future events. These estimates or assumptions may prove to be incorrect. All forward-looking statements contained in this release are qualified by these cautionary statements and are made only as of the date of this release. We do not undertake any obligation to update or revise these forward-looking statements to conform such statements to actual results or changes in our expectations.

(1) Derivative Accounting: "Core Earnings" exclude periodic unrealized gains and losses caused by the mark-to-fair value valuations on derivatives that do not qualify for hedge accounting treatment under GAAP, but include current period accruals on the derivative instruments. For periods prior to July 1, 2018, "Core Earnings" also exclude the periodic unrealized gains and losses that are a result of ineffectiveness recognized related to effective hedges under GAAP, net of tax. Under GAAP, for our derivatives held to maturity, the cumulative net unrealized gain or loss over the life of the contract will equal \$0.

(2) "Core Earnings" tax rate is based on the effective tax rate at Sallie Mae Bank, where the derivative instruments are held.

The following table reflects our provisions for credit losses and total portfolio net charge-offs:

Total portfolio net charge-offs	(69,539)		(45,098)		(253,143)		(153,722)			

Beginning in 2020, we plan to evaluate management's performance internally using a measure that starts with "Core Earnings" net income as disclosed above for a period, and further adjusting it by increasing it by the impact of GAAP provisions for credit losses and decreasing it by the total portfolio net charge-offs recorded in that period, net of the tax impact of these adjustments.
